Re: England Coast Path – Essex update

Thank you for meeting with myself and Claire Cadman from the England Coast Path, Essex Team on 9th November 2015. We appreciated hearing the issues and opportunities raised.

I am writing to tell you that Natural England has arranged a number of public 'drop-in sessions' to allow anyone with an interest in the England Coast Path an opportunity to find out more information – details of these are enclosed. Representatives from Natural England will be present to answer any initial queries people may have prior to detailed planning of the route. We are currently writing to all landowners who may be affected by the new access rights with details of these drop-in sessions. As a stakeholder in the process you would be welcome to visit any of these sessions - and please feel free to share this invitation more widely as you feel appropriate.

We have also produced information leaflets for each of the six stretches of coast currently being worked on which outline the implementation process in more detail, an example of which is enclosed. If you would like copies of any of the other stretch leaflets, please let us know.

We look forward to seeing you at one of our drop in sessions, alternatively if you have any queries about a specific stretch of the England Coast Path in Essex, please contact the relevant Lead Advisor, details of which are shown below.

Yours sincerely,

James Lamb

Senior Adviser – England Coast Path, Essex
